

VITO DI BARI

WELCOME TO THE ARTIFICIAL INTELLIGENCE TRANSFORMATION

The digital transformation era is not yet complete, and the AI transformation age has already started.

CONTEXT

The digital transformation era is not yet complete, and the AI transformation age has already started.

The AI market is expected to reach the \$500 billion milestone by next year. If your company's system is still not integrated with AI, your company will soon left behind and face severe threats to your survival.

However, those who embrace these technologies and invest in them will be able to lead their competition, propel their growth, and achieve future leadership through innovation.

Companies will stay ahead of the competition by embracing the power of AI combined with emerging technologies such as IoT, AI Cloud, Extended Reality, 3D printing and cooperative Robots.

One of the three most influential futurists in the world, along with John Naisbitt and Alvin Toffler.

WHY NOW?

Over the next years a business boom is coming.

It will impact all kind of companies in all industries. It's time to ditch legacy systems and integrate AI into business operations to boost productivity, save time and resources, and establish long-term customer relationships.

AI and machine learning will offer businesses countless benefits, from enhancing efficiency and workflow to offering user convenience and accessibility. Yet many organizations will be resistant to change and the introduction of artificial intelligence in the enterprise.

By automating routine operations and freeing up the workforce for more critical tasks, AI will allow companies to achieve a more efficient workforce and quality output.

Vito Di Bari is a visionary on Innovation, a great leader and a fantastic speaker. He was a guest speaker with terrific impact.

[Fabio Benasso, CEO, ACCENTURE ITALY]

KEYNOTE DESCRIPTION

This keynote presentation is an engaging and unique experience tailored to the theme of each individual event.

With a focus on live interactions with the audience, it includes AI and AR projections, fictionalized custom videos, memorable storytelling, and coups de theatre.

And get ready for the grand finale, the story of “A Day in the Future” on a movie screen, accompanied by live commentary and symphonic music.

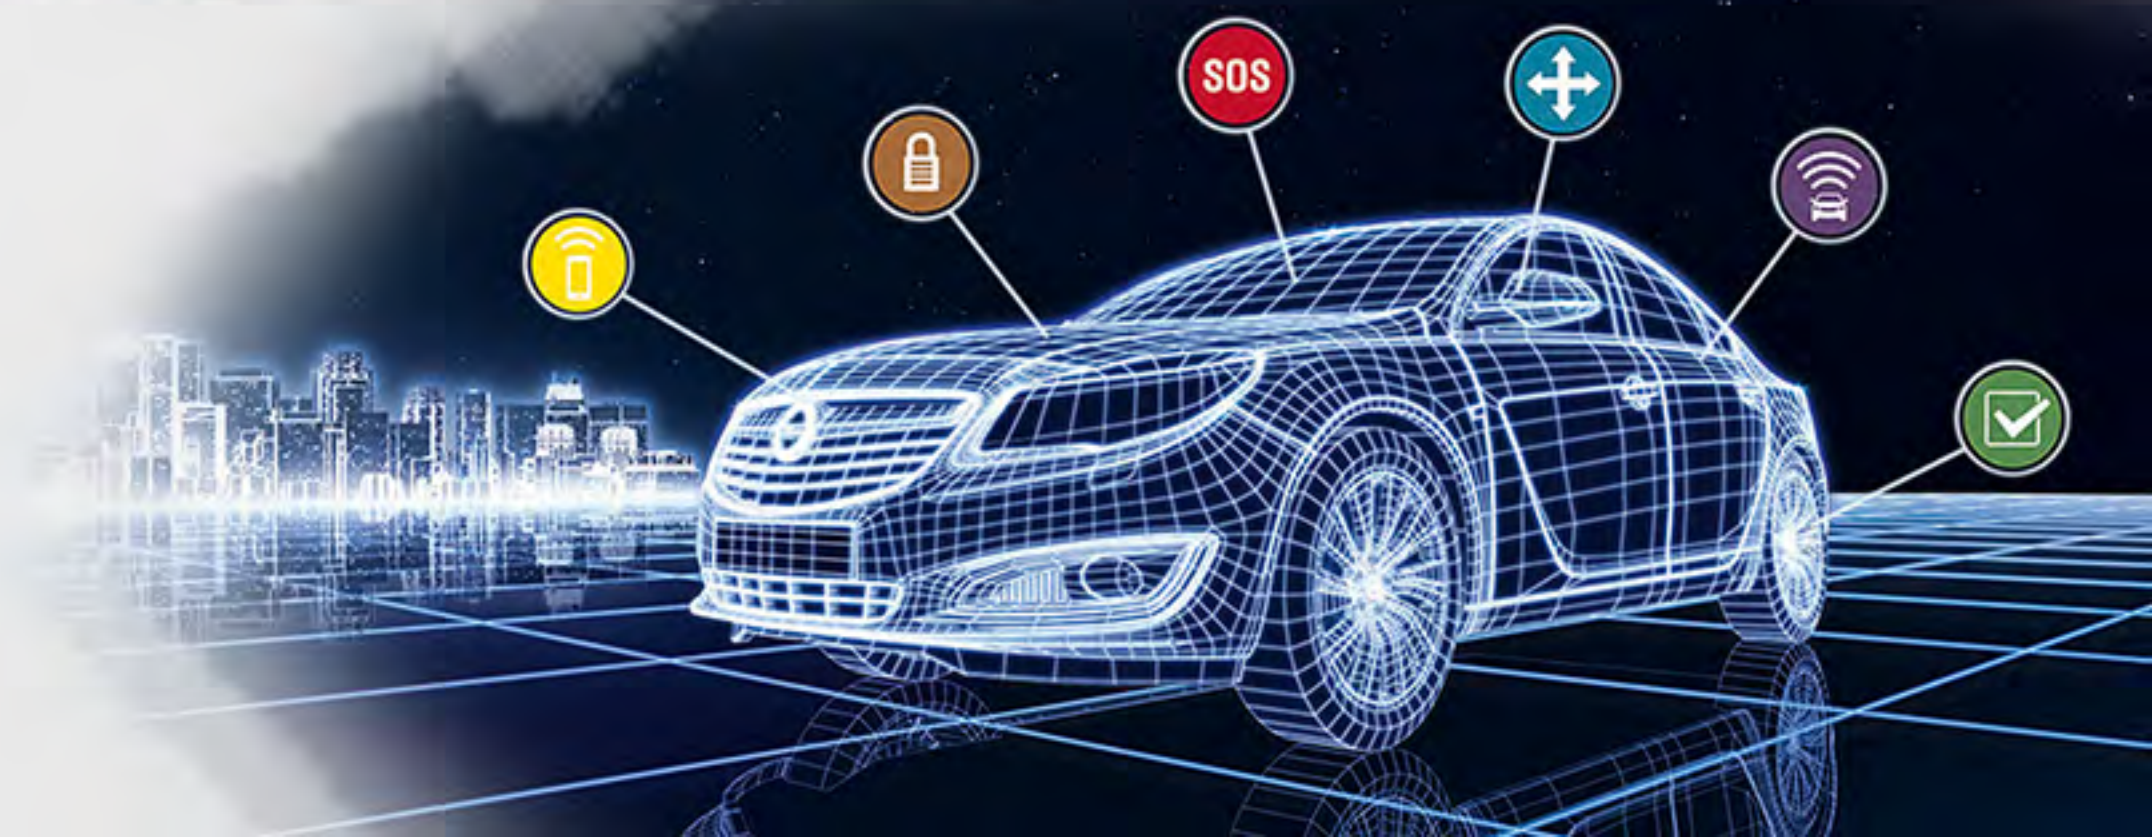

Vito did a spectacular job. His video towards the end of his presentation was phenomenal. It was an insightful, eye opening, and passionate look into the very near future of just about everything in our daily lives.

[Clark Mulligan, LPA]

MAIN TOPICS

The main topics covered are the following:

- An overview of how Artificial Intelligence will change the way specific industries work in the future, with a focus on AI transformation.
- Forecasting of business trends, business growth, and market evolution, based on AI technology.
- Success case histories, best practices, and leadership techniques to win the future of business competition.
- Inspirational strategies to achieve future leadership through innovation, emerging technologies, and knowledge of business trends.
- Useful guidelines on how to combine the power of AI with emerging technologies such as IoT, AI Cloud, Extended Reality, 3D printing and cooperative Robots.

Vito Di Bari challenged our conventional thinking.

[Dr. Narendra Kini, CEO Miami Children Hospital]

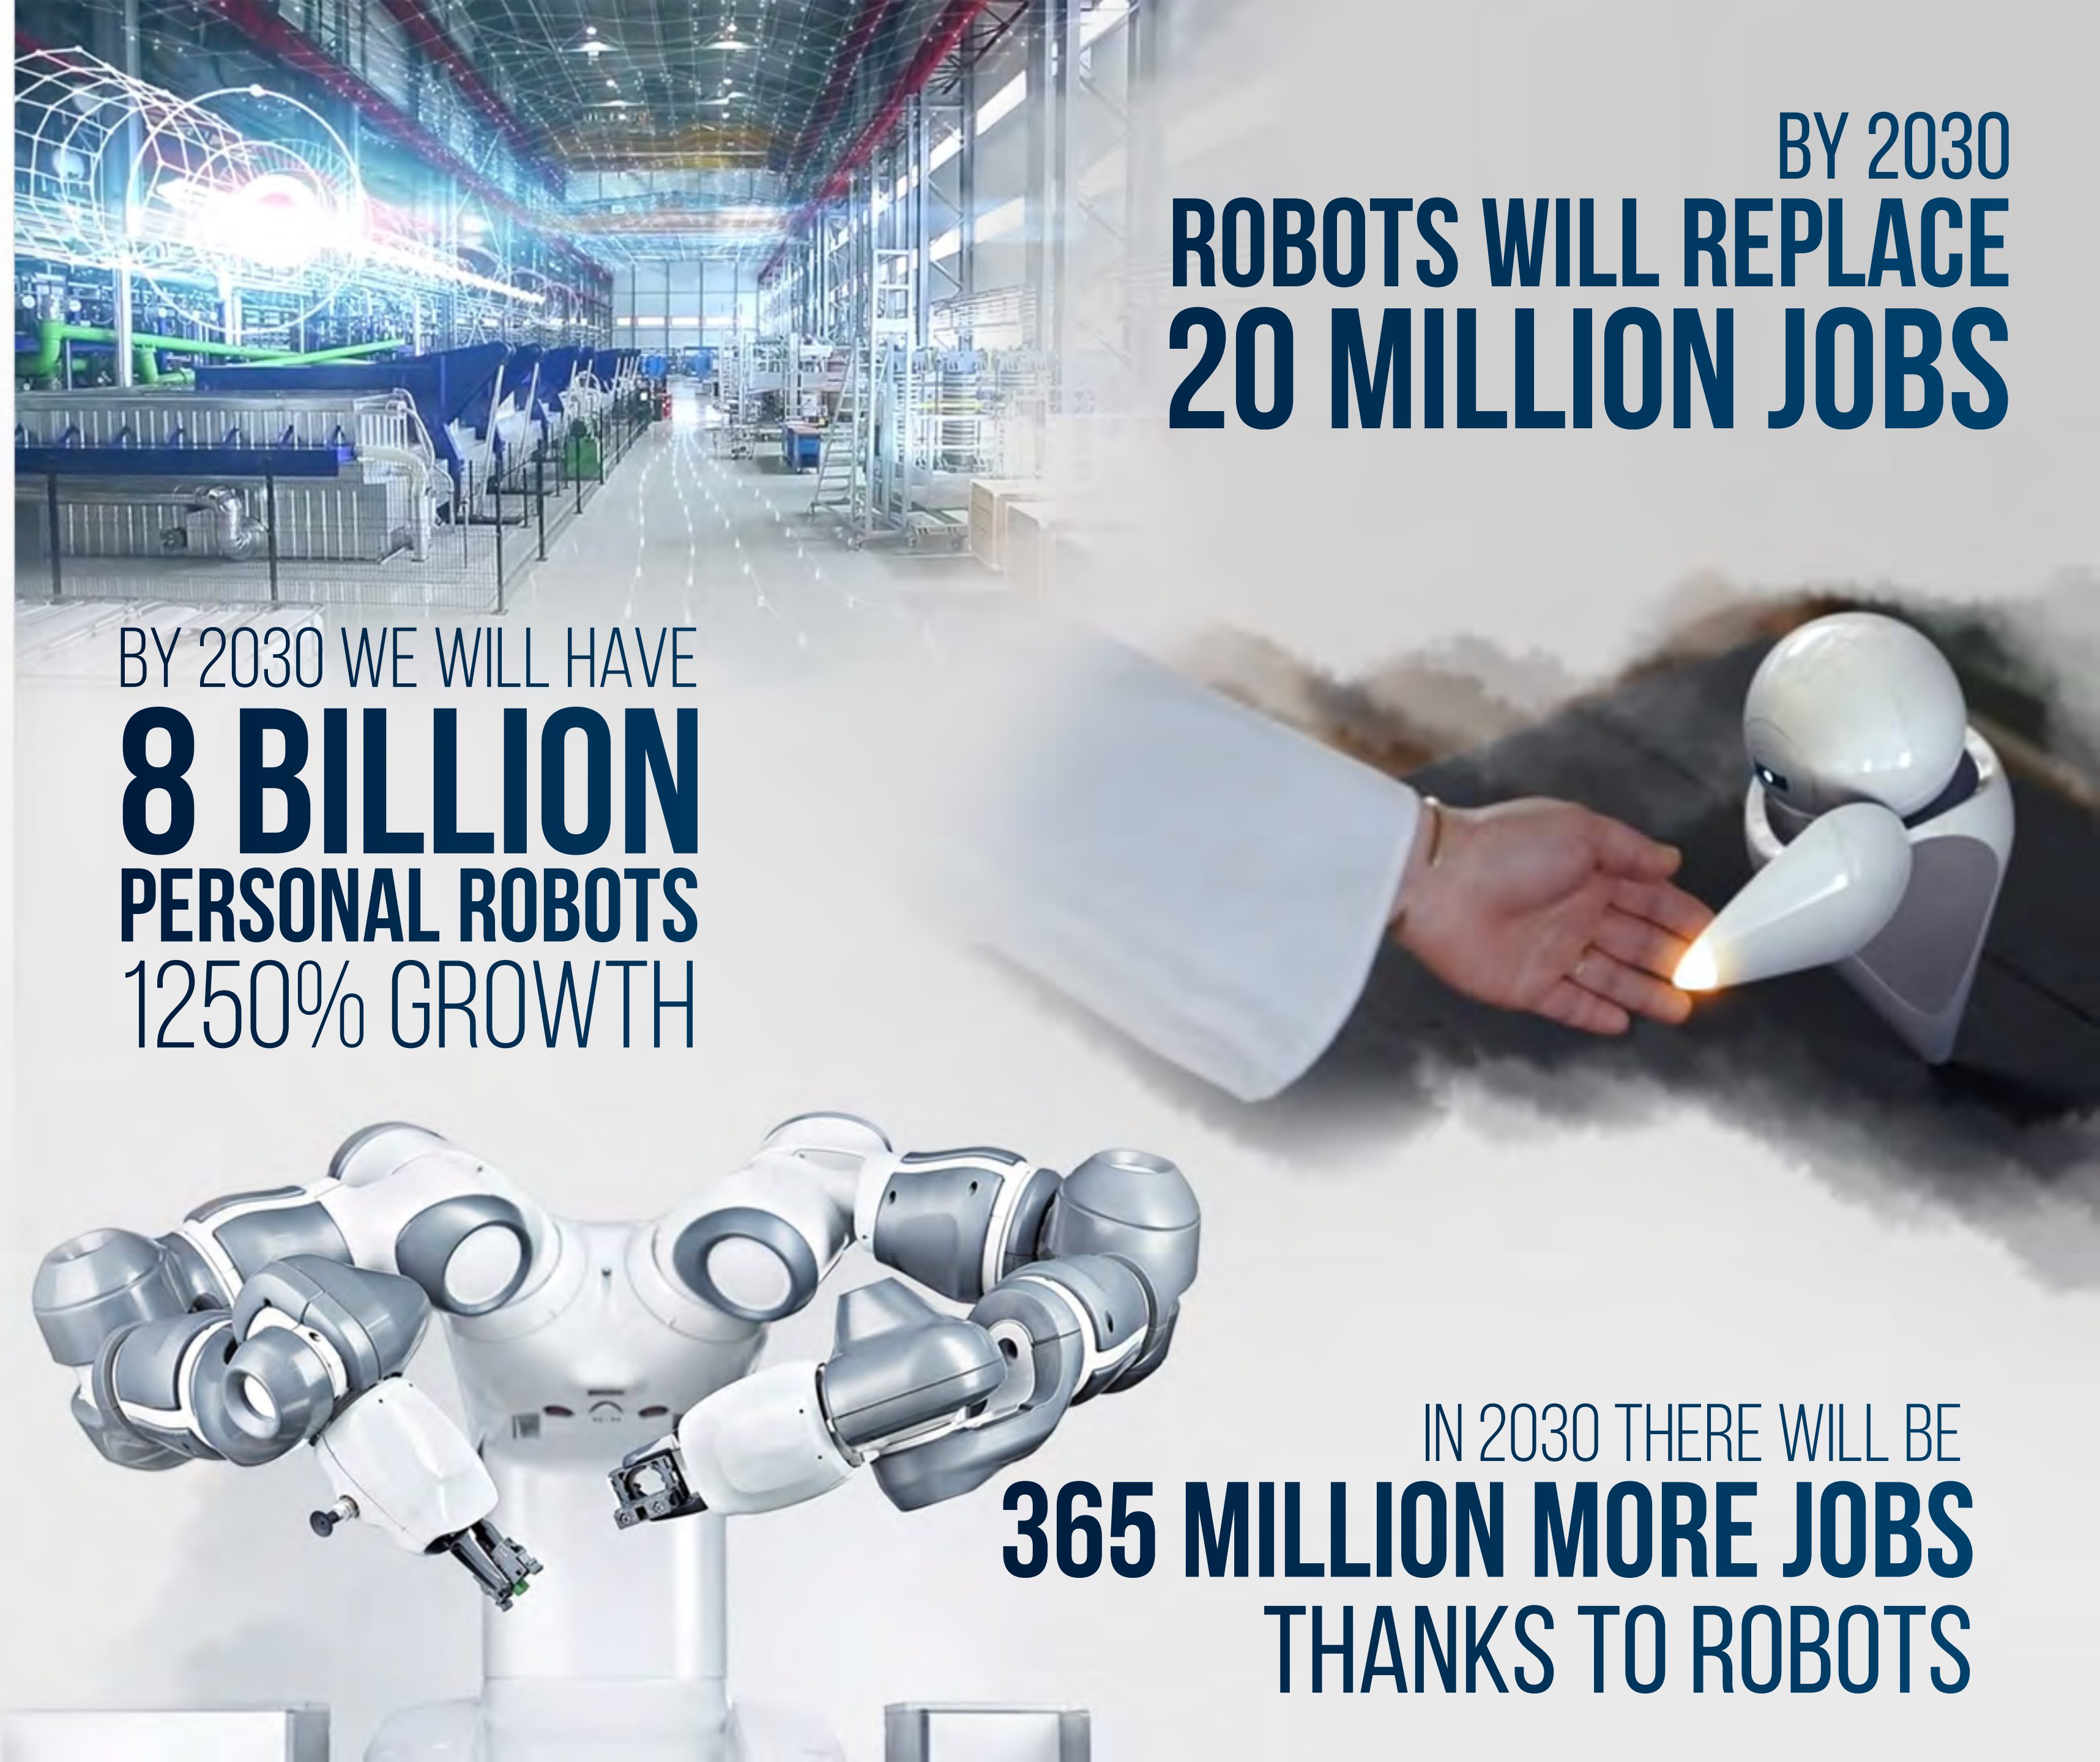

YOUR TAKEAWAYS

After attending this presentation, your audience will take away the following:

1. Team members will gain a deeper understanding of emerging technologies and AI as a game-changer.
2. C-Level executives will learn how to set realistic expectations and measure outcomes of an AI strategy, including leveraging AI for new products/services and communicating this to stakeholders.
3. Executives will be equipped with best practices for adopting AI and emerging technologies to stay ahead of the competition and innovate processes.
4. Business leaders will receive guidelines for determining how AI can enhance revenue, boost productivity/efficiency, improve customer experiences, or reduce costs.
5. Partners and clients will understand why investing in AI is critical for business growth and success, and how they can be part of a single plan aligned with the company's objectives.

Vito Di Bari's presentation at Ted Shanghai was amazing.

A GIFT FOR YOUR AUDIENCE

Give your audience a great gift with a book that will tell them all they need to know to become an AI-friendly company and explains the AI Transformation Ecosystem, including emerging technologies as IoT, Cooperative Robots, 3D printing, Extended Reality —and how to integrate them.

With a laser focus on the agricultural, automotive, construction, healthcare, hospitality, and retail industries, this guide dives deep into the three core reasons why embracing AI is not just a choice but a necessity. Discover how to identify threats and seize opportunities in your industry, leverage the five foolproof ways to assess your company's needs and goals, and unlock the top ten AI applications that will skyrocket your companies's success.

Vito Di Bari goes above and beyond by providing you with a comprehensive ten-step guide to seamlessly implement AI into your company. Gain a competitive edge as you lead the charge in embracing the AI Transformation. With this book: step by step, industry by industry.

I love his creative ideas, the metaphorical imagery, the visual boldness and the unique approach.

[W. Allen Morris, CEO AMC]

A FEW THINGS ABOUT VITO

Quoted as one of the three most influential futurists in the world, Vito Di Bari is a renowned innovation strategist and inspirational keynote speaker with a global reputation for excellence.

Based in Miami, FL, he is celebrated for his captivating and entertaining presentations that leave audiences enthralled. As an esteemed former professor of Project Design and Management of Innovation at both the Polytechnic University and Bocconi University in Milan, Vito brings a wealth of academic and practical experience to the stage.

Vito is the only keynote speaker who has given a TEDx Talk on five world continents. He has also served as the Executive Director for the IMI Institute of UNESCO in Paris and was appointed as the Innovation Designer for the World Fair Expo 2015 in Milan.

In 2001, he founded Next Media Lab, an international cutting-edge research laboratory, where he currently serves as CEO. After moving to Miami Beach, he founded Di Bari & Associates, a design studio creating cutting-edge artistic urban installations.

A prolific author, Vito has published numerous works on innovative theories and contributes to prestigious magazines such as WIRED and Harvard Business Review. He has also appeared as a host for television's Discovery Channel.

THE ONLY FUTURIST THAT TALKS ABOUT THE FUTURE AND SHOWS IT TO HIS AUDIENCES

This is how Vito Di Bari creates emotionally impactful and memorable events

Magical Storytelling

Vito explains the most advanced and technological trends by using real-life examples that are easy to understand.

Visual Entertainment

Through the use of videos, music and brilliant visuals, Vito Di Bari's speeches are less like a speech and more like a show that audiences will be talking about for years to come.

Audience Engagement

An engaging and inspiring presentation that draws audience participation.

Custom, Always

Fully immersed in your industry and company, Vito will deliver insight into trends that will determine the future of you and your customers.

WHO IS THIS KEYNOTE FOR?

This keynote presentation is perfect for C-level executives looking to lead their companies through a transformation process.

It's also an excellent opportunity for companies launching new innovative lines of products, going through relevant evolutions (such as a merger, acquisition, joint venture, or partnership), guided by leaders with a vision to share.

HOW CAN IT BE DELIVERED?

This presentation can be delivered as a keynote speech, either in-person or virtually.

It will be customized to meet the specific needs of each event and can be complemented with additional activities such as participation in a panel, a meet and greet, or a book signing.

FOLLOW UP ACTIVITY

Following the presentation, we offer a post-event debriefing session with company executives to gather feedback and insights. This can lead to design further workshops or brainstorming sessions on specific topics related to the AI transformation, enabling attendees to embed what they have learned and keep the momentum going. Additionally, we offer personalized consultations to help organizations to embrace change and tailor an AI transformation plan integrated with the emerging technologies.
